

*Lansdale AAUW Proudly Presents:*

**A Science and Math Extravaganza for Students in Grades 5 to 7**

AAUW has presented this program in the North Penn area since 1993. Contributors have included Merck Institute for Science Education, Weaver, Reckner & Reinhart Assoc., Karl Benner Graphics and Judith Tamas, DVM, North Penn Education Association

**Discover the Future!**

**Saturday, March 17, 2012  
8:30 AM to 2:45 PM  
Lansdale Catholic High School  
7th Street and Lansdale Avenue  
Lansdale, PA 19446**

**Discover the Future:** A full day event for students in grades 5 to 7, where attendees hear presentations from professional women who work in the fields of math and science, with the goal of sparking an interest and or motivating students to pursue further education in these fields. The day will include the following:

**Keynote Speaker:** Students will attend a presentation by Keynote Speaker, **Ms. Maryann Frazier**, a Senior Associate with the Penn State Extension Program. She studies bees in an effort to best enable their use in creating economic development in Third World countries.

**Discovery Lab:** a hands-on area designed to offer an interactive experience that utilizes math and science concepts.

**Workshops include:** Animal Scientists, Physical Science, Veterinarians and many more!

**In the event of inclement weather, detailed information for weekend activities will be available on radio station KYW 1060.**

**For more information please contact:**
