Why Women Don't Get Paid Like Men & What to Do About It

By Evelyn Murphy with E.J. Graff – October 2006

A WORKING WOMAN EARNS 77 CENTS FOR EVERY MALE DOLLAR.

In the twenty-first century, the gender wage gap still affects the daily life of women throughout the country, at every economic level, from cashier to CEO. Is it fair? No. Can it be stopped? Absolutely. In this intelligently argued and carefully researched book, Evelyn Murphy, Ph.D., examines how much women (and their families) lose over a lifetime to the wage gap, knocks down the myth that women "choose" to make less, and documents the widespread discrimination that's holding down women's pay.

Over her working lifetime, a woman will lose between \$700,000 and \$2 million.
DON'T LET IT HAPPEN TO YOU.
